Bardhaman Development Authority (BDA)- an Overview:

The Bardhaman Development Authority formed in the year of 2002 is a statutory authority under the Government of West Bengal formed under Town and Country Planning Act, 1979 covering an area of 157.62 Sq. Km, accommodating about 4.07 lakh populations. It is located in the south east part of Bardhaman district, 107 km north-west of Kolkata Metropolitan Area (KMA). The Bardhaman Planning Area consists of Bardhaman Municipal Area and its adjoining villages located in five Gram Panchayats under Bardhaman- I (i.e. Rayan- I, Kshetia, Baghar- II, Saraitikar, Belkash) Panchayat Samity and two Gram Panchayats (i.e. Baikunthapur- I & Baikunthapur—II) in Bardhaman- II Panchayat Samity. Actually, it spreads over 63 mouzas full or part as the case may be.

Since its inception, BDA has taken initiative to formulate innovative schemes in such a way so that all round & sustainable development (particularly in respect of infrastructural development) take place which will, in turn, mitigate the problems of an old heritage town like Burdwan and also in its adjoining areas.

These are the major schemes executed by the BDA in recent years:-

PPP schemes:-

Burdwan Development Authority had already undertaken the following Public Private Partnership Projects with the partners as mentioned below against each.

SALIENT FEATURES OF BARDHAMAN PLANNING AREA

- Bardhaman town is the administrative centre of the district. Most of the important economic activities like main administrative offices, main retail commercial hub, Bust terminal at Tinkonia, Bardhaman Railway station, Health and educational facilities are located within a radius of 1.5 Km keeping Curzon Gate at the centre.
- Bardhaman town also serves as the prime Trading Centre of goods and services for the flourishing agriculture hinterland.
- Bardhaman Planning area possesses tremendous growth potential being located in close proximity to KMDA as well as well connected to all neighboring district Head Quarters of West Bengal namely Bankura, Birbhum, Purba Medinipur, Hooghly.

- Higher growth rate during the last decade in the Urban population.
- The per capita income of the people is about 15000 p.a. which is much higher than the state average (about 12000 p.a.).
- Bardhaman being the granary of West Bengal has a potential for development of Mandi town amidst vast agriculture hinterland.
- The rice cultivation has improved considerably since sometimes past with the implementation of the Irrigation projects undertaken by the Damodar Valley Corporation.
- Rice has become the main cash crop and has given rise to development of number of rice mills and rice related industries.
- The Bypass to NH-2 has been widened to four lane corridor paving the way for better connectivity, BPA enjoys multi modal connectivity with the other important regions within the district as well as with other important destination.
- Burdwan-Durgapur Railway Line passes through the town.
- It is found that the CD Blocks Burdwan- I and Burdwan- II have shown much higher growth since 1981, due to the fact that the economic opportunities of these Blocks are slowly changing from primary sector to tertiary sector.
- Population density is very high in core of the city. Population density is more than 15000 per sq km in 23 wards out of 35 wards within the Municipal areas.
- This historic town with its dense pattern of urbanization has already exhausted the capacity of urban road network resulting in severe congestion and delay.
- Old G.T. Road which passes through the core of the city, often bring about intermixing of slow and fast moving vehicles leading to peak hour congestion.
- The main Bus stand at Tinkonia catering to the regional as well as town bus service and located at the core of the town is unequipped to support the present fleet volume.
- Bardhaman Municipal town has now grown almost to its full capacity occupying nearly 87% of the total area under urban use, leaving only 13% for water body, agriculture and vacant land.
- There still exists large deficit in water supply, drainage, sewerage, connector roads and other urban infrastructure under BPA.
- The BPA area experiences a spatial growth pattern due to presence of railway track which virtually dictated the growth of Bardhaman Planning area to the north-west direction only.
- The Railway over-bridge over Burdwan Durgapur Line is age-long old, narrow, weak and unfit to cater the traffic load particularly during the peak time.
- Drainage systems of the Municipal areas are pretty old causing water logging in some areas, particularly during rainy season.
- The in-depth study reveals that a wide range of disparity in the cross-sectional income group in having access to water, sanitation, drainage and physical infrastructure, all leading to utter chaos especially during the day time.

Future Plan of Burdwan Development Authority

Multilevel Car-Parking in front of the Collectorate Building, Burdwan

The Burdwan Development Authority would undertake a project of Multi Level Car Parking besides Purba Bardshaman Collectorate Building.

In order to avoid congestion of nearby road due to haphazard parking this project is being undertaken to cater the need of parking facility for 200 no. of Government vehicles. Project Cost Rs. 27.35 cr. (approximately).

The project is consisting of the following components.

Car Parking at two basements.

1. Food Stall at Top Floor.
2. Landscaping Garden/Lawn.

Accordingly, DPR of the project has been sent to the Principal Secretary, U.D. & M.A. Department, Government of West Bengal for administrative approval and financial sanction.

Beautification of the right side of the road including Jhill (Ditch) in the area of the Burdwan University at Golapbag campus

The road is running by the side of the University of Burdwan at Golapbag and this is a signature scheme in Burdwan Town. Many VIPs and dignitaries come to Burdwan University by using this road.

The Burdwan Development Authority besides renovation of the road from Bidhan Chandra

Roy's statue to Golapbag more has decided to execute scheme for Beautification of the right side of the road including Jhill (Ditch) in the area of the Burdwan University at Golapbag.

Beautification (Car Parking, Shop Cluster, Pay & Use Toilet) of the area underneath the Fly Over, Burdwan

In collaboration with PWD, Burdwan, the Burdwan Development Authority will facilitate in the making of design of the entire project. For this purpose, at present PWD is conducting Total Station Survey.

Pay & Use Toilet at Utsab Maidan, Burdwan

All the year round different types of Mela are held at Utsab Maidan, Burdwan which observe huge gathering. But there is no Toilet at that premise.

Thousands of spectators specially the ladies are facing difficulty for non-availability of Toilet at the Utsab Maidan premises.

So the Burdwan Development Authority has decided to construct a "Pay & Use Toilet" at Utsab Maidan, Burdwan.
